Top Skills

FWA

Engineering

OpenWRT

Elliot Huang

Wifi|Android|Zig|Golang|GCP
Shenzhen, Guangdong, China

Experience

CommScope

Software Engineer

May 2022 - May 2025 (3 years 1 month)

Shenzhen, Guangdong, China

- Developed and optimized Wi-Fi driver features for home network cable modems, focusing on bug fixes and band steering improvements in collaboration with vendors like MediaTek and Airoha.
- Worked on OpenSync integration for OpenWrt-based GPON routers, enabling a cloud-based mesh networking solution.
- Developed and integrated Vantiva's premium wireless router operating system based on OpenWrt, focusing on proprietary wlan_mgr integration for Qualcomm's 5G FWA platform.
- Led platform integration efforts, leveraging expertise in Android to optimize Qualcomm SDX platform integration with OpenWrt/Homeware.
- Provided technical guidance to colleagues on platform-related issues, resolving build system bugs affecting Homeware kernel module compilation and fixing an OTA recovery bug introduced by the vendor.

MediaTek

Wifi driver engineer

December 2021 - February 2022 (3 months)

Shenzhen, Guangdong, China

- Studied the IEEE 802.11 protocol by analyzing technical specifications.
- Gained insight into MediaTek's Wi-Fi driver architecture and conducted an internal training session based on findings.

realme

Camera Driver Engineer

September 2020 - November 2021 (1 year 3 months)

Shenzhen, Guangdong, China

- Developed and integrated Qualcomm camera software for premium Android smartphones, focusing on bug fixes, third-party algorithm integration, and CTS certification.
- Collaborated in large-scale, cross-organizational development teams, improving project management and teamwork skills.
- Gained a strong understanding of Qualcomm's Spectra ISP pipeline and camera software architecture.

Education

Jiangxi University of Science and Technology

Bachelor of Engineering - BE, Electrical and Electronics Engineering · (June 2016 - July 2020)
